

SPECIFICATIONS:

- Input Voltage:** 10-15 volts DC
- Input Current** 4.8 amps max continuous
- Output Voltage:** 10-12 volts DC during back-up operation
- Output Current:** 3 amps continuous
- Battery:** Internal sealed Ni-MH
- Charger:** Integral high performance fast charger
- Surge Protection:** 16 volt active clamp, 1500w 10/1000uS waveform
- Wiring:** CPC connector with Mil-spec machined contacts
Field replaceable inline fuse: AGC-7.5
- Enclosure:** Cast aluminum
5.8" x 3.7" x 1.3" (including mounting flange)
- Weight:** 1.5 lbs
- Temperature range:** Operating -10 C° to 60 C°
Charging 0 C° to 40 C°
- Connectors:** AMP type CPC # 206486-2 on product wiring harness.
AMP type CPC # 206485-1 is utilized on the aircraft wiring harness.
