Note:  
All SAF-T-STOP STC's have been approved for use in compliance with Paragraph (b) Option 1 of AD 87-20-03. STC's SA1209, 1210, 1211, 1212GL are listed in option #1. However, the remaining STC's are identical and were accidentally not included in the A.D. Technical correction are being made to the A.D. and the remaining STC'S will be included in the next revision. Until the revised A.D. is released the Wichita Aircraft certification office has provided that an equivalent method of compliance with paragraph (b) option #1 will be granted upon request when any of the STC's listed on this page are installed in eligible aircraft.

IMPORTANT:

Record the Model, Registration, Serial and STC numbers on the Flight Manual Supplement in the spaces provided.
