

Engine Cover Measurement Worksheet

Bruce's Engine Cover is custom tailored to fit using at least three measurements. Please complete and return this worksheet.

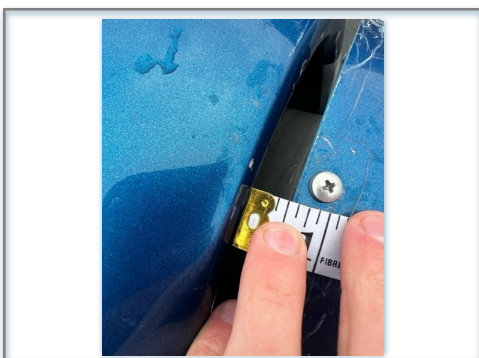

Distance Around the Spinner - please measure all the way around the back of the spinner using a cloth tape or string.

1. Around Spinner: _____

Size of the Prop Shaft - please measure the size of the prop-shaft or spinner assembly directly behind the spinner. Your best estimate is okay, we will adjust the opening on the cover to this size.

2. Prop Shaft Size: _____

Gap - please measure the gap between the spinner and the cowling. If the measurement varies, please check the top and bottom of the spinner.

3. Cowl Gap: _____
