

SUPERIOR GASKETS – CYLINDERS

SUPERIOR LYCOMING ENGINES - MAJOR OVERHAUL GASKET SETS

Lycoming engines are built with the best components in the industry. The only parts we paint are the steel

barrels to resist corrosion. All aluminum parts; crankcase, assembly case, sump cylinder heads and assy drives are alodined only for corrosion protection. This leaves an engine that is easy to inspect, provides better cooling, and is lighter weight. FAA-PMA Approved
NOTE: Intake hoses and oil drain-back hoses must be ordered separately.

* Contains Exhaust Gaskets

** Contains Spiratallic "NO BLO" Exhaust Gaskets

*** Exhaust Gaskets, Not Included

SUPERIOR MILLENNIUM CYLINDERS

Uniform hardness all the way through the steel barrel walls which allows the barrel to provide even wear while withstanding extreme cylinder temperatures and pressures. Exhaust and intake ports are volumetrically matched to maximum output and performance. Increased port wall thickness - eliminates problems with warping and cracking. Computer-generated head fin configuration - deliver more uniform heat transfer and fewer "hot" spots. Manufactured from the most advanced alloys available - exceed industry standard for strength and porosity.
