ROLEDS LED AVIATION LIGHTING

AEROLEDS SUNSPOT 36-4000 75W PAR36 LIGHTS

FAA-PMA FOR CERTIFIED AIRCRAFT

AeroLEDs SunSpot 36 75W delivers exceptional performance for both landing and taxi operations:

- Landing Light: 200,000+ candela, 15°x15° beam, visible up to 30 miles for outstanding recognition in the air.
- Taxi Light: 60,000 candela, 20°vertical x40° horizontal beam for superior ground visibility.

These advanced LED lights offer true-to-life illumination with exceptional color rendering, consume less power, and are resistant to vibrations. Designed for convenience, installation is seamless with the standard PAR36 mount and existing electrical connections.

-H Model Features:

- · Built-in Pulse (wig-wag) mode for enhanced safety, aiding collision avoidance and reducing bird strikes.

 • Self-contained Pulse controller requires no external circuitry.
- Reduces electrical load by 50% in multi-light setups.

Specifications:

- Power Consumption: 75 watts max
- · Lifespan: 30,000+ hours MTBF
- · Lens: UV-hardcoated polycarbonate
- Construction: Aluminum, black powder-coated heat sink
 Approvals: FAA-PMA/STC certified

Upgrade to AeroLEDs SunSpot 36 Series for unmatched visibility, reliability, and safety in all your aircraft lighting needs.

LANDING LIGHTS

Description	Part No.	Price
SunSpot 36-4509 Landing Light (14v)	11-19466	
SunSpot 36-4509-H Landing Light w/Pulse (14v)	11-19467

AEROLEDS SUNSPOT 36-4000 100W PAR36 LIGHTS

FAA-PMA FOR CERTIFIED AIRCRAFT

AeroLEDs' SunSpot 36 100W delivers top-tier performance for landing and taxi operations:

- · Landing Light: 200,000+ candela,
- 20°x20° beam, visible up to 30 miles.

 Taxi Light: 60,000+ candela, 20°x40° beam for superior ground visibility.

These lights provide vivid, true-to-life illumination, consume less power, and resist vibrations. Installation is easy

with a standard PAR36 mount. -H Model Features:

- Built-in Pulse (wig-wag) mode for enhanced safety and collision avoidance.
- Reduces electrical load by 50% in multi-light setups.
- Specifications:
- 100W max. 30.000-hour lifespan
- UV-coated polycarbonate lens, FAA-PMA/STC approved

Upgrade your aircraft with SunSpot 36 Series for unmatched visibility and reliability.

AEROLEDS SUNSPOT 46-4000 SERIES LIGHTS - FAA-PMA

AeroLEDs SunSpot 46 sets the industry standard for high-performance landing and taxi lights:

- · Landing Light: 230,000+ Candela, 20°x20° Broad aviation-white beam with vivid, true-to-life color rendering for improved visibility and safety.
- Taxi Light: 100,000 Candela, 20°x40° beam for exceptional ground

visibility and air recognition up to 30 miles.

These lights consume less power, resist vibrations, and integrate seamlessly with existing PAR46 mounts for easy installation.

-H Model Features:

- Built-in Pulse (wig-wag) mode for enhanced recognition and collision avoidance.
- · Reduces electrical load by 50% in multi-light installations.

Specifications:

- Power Consumption: 175 watts max
 Lifespan: 30,000+ hours MTBF
- · Lens: UV-hardcoated polycarbonate
- Construction: Aluminum, black powder-coated heat sink
- Approvals: FAA-PMA/STC certified

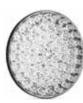

Upgrade to SunSpot 46 Series for unmatched performance, reliability, and Upgrade to Sunsport to School 12. safety in all lighting conditions.

AEROLEDS SUNSPOT 64 ANDING LIGHT - FAA PMA - 28V

AeroLEDs SunSpot 64-4000 Series provides brilliant brightness and efficiency as an LED landing light solution, designed for seamless compatibility:

• Landing Light: Delivers brilliant brightness compared to stock incandescent lamps, enhancing ground visibility and air recognition for safer operations.

Engineered for convenience, the SunSpot 64-4000 Series serves as a simple drop-in replacement for all existing PAR64 configurations, ensuring easy installation with no additional modifications required. SunSpot 64-4559 (28v) Landing Light......P/N 11-16454

AEROLEDS SUNSPOT 36 EQUINOX

AeroLEDs SunSpot 36 Equinox is the industry's first dual-function landing and taxi light, delivering tailored lighting for all phases of flight:

- Landing Mode: Bright 20°x20° beam for enhanced visibility during high-speed takeoffs
- Taxi Mode: Wide 20°x45° beam for superior runway/taxiway illumination without impairing other pilots' vision.

With vivid, true-to-life illumination, the Equinox consumes less power, resists vibrations, and fits seamlessly into existing PAR36 mounts using a DPDT switch for dual-mode functionality.

Additional Features: • Built-in Pulse (wig-wag) mode for daytime recognition ,collision avoidance and reduced bird strikes. • Reduces electrical load by 50% in multi-light setups.
