

GREX TOOLS - HARDWARE ORGANIZERS

GREX CROWN STAPLER

For projects requiring a slightly heavier thin-wire staple with a wider crown, the GREX fine wire stapler conveniently uses a crown staple with lengths ranging from 3/16" to 5/8". The 80AD and 71AD are built for speed of production, ergonomics and convenience: Patented trigger valve for fast-air-recycling

time, quick release magazine, compact with a slim profile, and a powerful lightweight industrial strength design.

GREX AIR 105° ANGLE RANDOM ORBITAL SANDER KIT

A new comprehensive kit that bundles this tool with all it's compatible accessories plus an extensive range of premium abrasives - all packaged in a custom carrying case with foam inserts to securely protect and organize all it's contents. This all-in-one kit gives you everything you need to quickly tackle all your projects.

The defining (and patented) feature of the AOS368 sander is its unique 105-degree angle which provides better ergonomics than

traditional right-angle sanders. With its compact size, it was designed for detailed sanding, spot sanding, reaching in to corners and for getting into tight areas where larger sanders can't reach.

GREX MICRO SPRAY GUN SET

These are the Tritium.TS and Tritium.TG at heart, and bundled with all the essential accessories to make it work and play like a mini spray gun. Along with the heavy duty, ready for anything case, the MF.TS and MF.TG are ready for almost anything you throw its way. These are feature packed airbrushes and you'll find the same reliable, high performance

quality you've come to expect from any Grex product.

GREX 2116AD - 22 GAUGE 3/16 INCH CROWN STAPLER

Dollhouses, miniature structures, replicas, architectural model building, upholstery and much more, the GREX 2116AD drives thin-wire 22-gauge 3/16" crown staples with lengths ranging from 3/16" to 5/8". The 2116AD finish stapler has a 3/16" crown, recommended for projects where nail heads are too small and might slip through the material.P/N 12-06437---

GREX 21 GAUGE 1/2 STAPLER

For projects requiring a slightly heavier thin-wire staple with a wider crown, the GREX 80AD fine wire stapler conveniently uses a 21-gauge 1/2" crown staple with lengths ranging from 3/16" to 5/8". The 80AD is built for speed of production, ergonomics and convenience: Patented trigger valve for fast-air-recycling time, quick release magazine, compact with a slim profile, and a powerful

lightweight industrial strength design. For speedy continuous stapling, fast-air-recycling allows the 80AD to quickly maximize internal air pressure and maximize power after each shot for rapid shooting.

GREX CROWN AUTO-FIRE STAPLER

GREX patent pending auto-fire speed dial allows the GREX 50AF, 71AF and 80AF fine wire stapler to shoot one staple or rapid-fire several staples per single trigger pull. Turning the auto-fire speed dial counter-clockwise (towards A - Automatic) increases shots per minute and turning the auto-fire speed dial clockwise (towards S - Single) reduces shots per minute.

BOLTSTER FLEXIBLE BOLT AND FASTENER ORGANIZER

Introducing our new Boltster! "The Holster for your Bolts." Born out of necessity, the Boltster is a must have for mechanics, gearheads, woodworkers, body shops, aviation mechanics, marine mechanics, and anyone looking to streamline

their wrenching projects. The premise is simple. Our Boltster solves the problem of misplaced bolts and fasteners. This means no more cups of bolts or sandwich bags labeled with all your fasteners. No more guess work when reassembling a project. No more cardboard bolt diagrams. No more time wasted or anxiety from misplacing the fasteners you need!

BOLTSTER AIR FORCE ORGANIZER

The ultimate solution for fastener retention. Specifically designed for fasteners ranging from 4mm to 8mm (or 5/32" to 5/16" for standard measurements). Made from durable silicone and weighing just under 2lbs, it features 80 evenly spaced holes, maximizing the distance between fastener heads for optimal organization. Ideal for

airplane mechanics, marine mechanics, automotive technicians, and other professionals who handle smaller fasteners, the Boltster Air Force Organizer ensures efficiency and security in your work. This Red, White, and Blue themed organizer includes a locking clip, perfect for convenient storage. Plus, like all our products, it comes with a LIFETIME WARRANTY.....P/N 12-06439---

BOLTSTER FLEXIBLE ORGANIZING TRAY

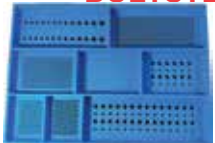

Introducing the third model in the Boltster line up, the Boltster Flexible Organizing Tray! The Boltster Tray is the next step of our product evolution. It is everything the Original Boltster provided and so much more. We have listened to your requests the past two years, and this is the result! The Boltster Tray is a must have for automotive mechanics, body shops, aviation /

marine technicians, woodshops, and anyone else looking to keep their projects organized.

BOLTSTER TOP BOX TOOL TRAY

Introducing the fourth and latest consumer model in the Boltster line up, the Boltster Top Box Tool Tray! Over the past few years, we have had an incredible amount of feedback requesting a larger product for the top of the tool box or rolling cart. This is the result! The Top Box Tool Tray is a must have for automotive mechanics, body shops, aviation / marine technicians, woodshops, and anyone else looking to keep their projects organized.

BOLTSTER MODULAR SYSTEM

Have a bigger project? We have created a solution! This modular system will convert up to 4 flat Boltster Organizers into a larger working surface. This system is perfect for engine / transmission overhauls or any job that requires a significant amount of organization. These can be placed either on the front or back of your organizers depending on the look you are going for.P/N 12-06463---

BOLTSTER ORGANIZER PAINT PEN

This white paint pen was designed specifically for writing

on silicone and plastic surfaces. Stays when you want it, wipes off when you don't! This is hands down the best solution for drawing parts diagrams on your Boltster products. For convenience and storage, the slim body actually fits within the organizing pattern as well.

Simply prime the pen, label your project, and remove when done. Rubbing alcohol is our favorite solvent for removal of the ink.
