STABILIZER TRIM SCREW BOOT FOR C-180, C-185, AND C-182 THRU C-182D

Boot.....P/N 05-07015

CESSNA 120/140 FUEL VALVE KIT

This valve has a very smooth action with positive detents. Like the original valve, it has positions for left-on, right-on and both-off. Unlike the original, it is not prone to sticking or binding. It does not require periodic seal replacement or lubrication. This PMA'd replacement valve will mount almost identically to the original OEM valve. It uses the same tank selector plate and the same mounting hardware as the original. This valve is sold in a kit that includes the handle and installation instructions. The handle has no "pointer." This is in compliance with AD47-43-02.

• FAA-PMA approved
• Supercedes part numbers 1552004-10 and 0552173-6
P/N 05-04788

EXHAUST CUFF FOR CESSNA 340

The problem • The exhaust pipe creates parasitic drag within the slip stream • Non-laminar flow conditions occur at the opening of the cowl
• Aircraft esthetics are affected by the protrusion of the pipe. The exhaust cuff solution eliminates non-laminar airflow about the exhaust port • Reduces cylinder head temperatures
• Cruise performance increased • Enhances the esthetics of the aircraft
Cessna Exhaust Cuff 340P/N 05-04475

ROLLER PIN VERNIER
