PILOT USA PA-1160A HEADSET

This aviation headset eliminates any need to compromise. Everything you want in a headset, comfort, able to be used with a stereo intercom and individual ear volume controls for perfect audio adjustment. The headset is designed to plug directly into the ICOM® aviation transceivers eliminating any need for extra adapters. It can also be used with the A22 but we suggest the PA-1160A/S with Straight plug for those models that have the input on the top of the radio. For ease of use, it includes an inline Press-To-Talk (PTT) switch on the comm-cord. **Note: Icom IC-A4 required straight plug connector. This right angle version will not fit.**
