

SEAT FOAM - FLIGHT SEATS

CONFOR FOAM SEAT CUSHION

Confor Form (formerly called Temperfoam) is the conforming foam cushion that was developed for the "Astronaut's Couch" back in the Apollo space program. Confor Foam has the capability of absorbing a tremendous amount of impact shock compared to common polyfoam and it is flame resistant. It is an excellent product that will give your seats enduring comfort that you never thought possible. Adapts to you for pressure point-free comfort that is really incredible. The best universal cushion for aircraft use is a 3" CF42/CF45/CF47 laminate. Confor Foam meets FAR 25.853, FAR 25.855, and CAL 117 burn specifications making it excellent for certified aircraft or homebuilts. Some special sizes in 1", 2", or 3" thicknesses are available on special request.

Foam Size	Foam Type	Color	Part No.	Price
1" X 16" X 18"	CF45 Medium	Blue	01-09310	.

AIRCRAFT SEAT CUSHIONS

An attractive, quality built seat cushion measuring 15" x 15" x 2". Its cockpit friendly compact design has a simple loop strap for carrying. The fire-resistant foam was carefully selected to maintain adequate height under body weight and G-forces, while still maintaining comfort. The outer material is a 600 denier, liquid repellent nylon. The cushions with the backs feature a 14.5" x 14.5" x 2" tufted back with tapered top, and a simple loop strap for carrying.

INFLATABLE LUMBAR SUPPORT

This inflatable air pillow can be installed just under the seat material and will give you the customized support just where you need it. A convenient palmsize pump and a release valve control the firmness of the lumbar support. The In-Flight Back Support is made of a heavy duty self-extinguishing neoprene rubber, specially designed to pass FAR 23.853 flame-test requirements.
