REVERE AERO ELITE LIFE RAFTS

The Aero Elite offers both crew and passengers easy usage when facing the stress of a life threatening situation as opposed to other liferafts that can be difficult to lift and transport at the time of need. Vertical bulkheads inside divide the tube into two independent air-holding compartments. If one compartment is punctured, the other keeps you afloat. Offers a spacious 4 square feet per person. Inflatable floor, stowage pockets, zippered windows, flashing strobe, extra large ballast pockets, an extensive equipment pack including USCG/SOLAS flares plus much more. If serviced according to manufacturer's specs, the Aero Elite offers a 12 year warranty.

SWITLIK INFLATABLE LIFE RAFTS

The Switlik ISPLR brings advanced military design and mission-proven durability to a single place life raft available for mariners and pilots who are serious about their personal lifesaving equipment. Fully reversible. The unique U-shaped design allows the raft to be fully reversible, allowing quick, easy entry from the water - whichever side is up when it automatically inflates. The ISPLR's low slung floor design allows seating at a slight recline lowering the center of gravity well below the waterline, increasing stability in rough waters. Zip to the elements. Twin zippers, located on either side, allow you to partially close the canopy, keeping the elements out while providing great ventilation.

REVERE LALIZAS SINGLE - SEAT LIFE RAFT

Designed for aviators and military personnel. Designed for single person use in extreme conditions, with operational temperature ranges from 0°C to 65°C. Compact, durable and lightweight design for easy storage in confined areas. Stowed conveniently in a backpack (for military use) or in a protective valise (for commercial use) for added security and portability. Can be seamlessly attached to the pilot's lifejacket, ensuring immediate deployment when needed. Compatible with all types of lifejackets. P/N 11-20878

REVERE COMFORTMAX™ INFLATABLE PFD - RED TYPE III

Features: •USCG approved for persons at least 16 years of age weighing 80 lbs. and above with a chest size between 30" and 52" • Dual waist belt stainless steel adjusters. Provides for easy adjustment with both hands and a more custom fit • Exterior inflation system access flap. Allows for clear, direct access to the CO2 cylinder for rearming. CO2 cylinder can be replaced without opening and unfolding the entire PFD • Waist strap and back strap attachment points fully connected and reinforced from inside for added strength • Heavy duty 420 denier nylon packcloth outer cover • Twin 2" wide back straps for comfort and security • Comfortable neck. The neck area has no Velcro or edge binding to cause chafing or abrasion for all-day comfort. Red P/N 13-04373 Navy Blue P/N 13-04372

REVERE PFD RE-ARMING KIT

This manual PFD Rearming Kit for Comfortmax Inflatable PFDs is an instant CO2 manual inflation system. P/N 13-08831

REVERE COMFORT MAX MANUAL BELT PACK

Specifications: Model: 45-61098-101N. Sizing: Adult Universal. User Weight: More than 90 lbs (> 41kg) Chest Size: 30"-52". Buoyancy: 35 lbs (156 Newtons). Approx. Unit Dimension: 10"x4"x3". Approx. Weight: 2 lbs Navy P/N 13-08826 Red P/N 13-23257

ARTEX RESQFLARE PRO

The ResQFlare PRO electronic boat flare facilitates rescue by emitting the flash characteristic for the International Morse Code for S-O-S, where the first "S" is represented by three red-orange LED flashes, followed by the "O" which is represented by three cyan LED flashes, and the final "S" which is represented by another three red-orange LED flashes. Simultaneous to the visible red-orange and cyan flashing LEDs, the IR component flashes the same S-O-S pattern that is optimized for visibility via Night Vision Goggles (NVG). Perhaps most impressive, even with the extensive number of visible and IR flashes occurring, the high level of light intensity produced, and the significant light distribution range (Luminous angle ≥ 180°) that is achieved, the ResQFlare PRO still attains an impressive operational life of at least three hours (exceeding RTCM requirements by 50%). P/N 13-25849

REVERE AQUA LIFE JACKET LIGHT

The AQ40S is a compact flashing life jacket light, automatically water activated by its integral sensors or manually. Its unique size and shape, makes the AQ40S ideal for a variety of life jackets.

SWITLIK CPR LIFE RAFT WITH PART 91 KIT

SWITLIK's CPR is designed to be a high quality, light weight, best in class coastal life raft, with a convertible canopy system, large, fast deploying water ballast bags and heat sealed construction. The CPR provides 1,140 lbs of inflated buoyancy and 19.6 sq. ft of floor area and offers excellent ventilation as well as total protection from the elements. P/N 13-19317

SEE WWW.AIRCRAFTSPRUCE.COM FOR A COMPLETE SELECTION OF EAM SURVIVAL KITS

EAM SURVIVAL RAFTS

Each product is manufactured with the highest quality craftsmanship and are proudly FAA-TSO approved. In addition, EAM is proud to offer customizable raft packaging to meet any client's specifications. When deployed and in the water, the raft may be boarded on either side. Survival items are contained in a kit tied to the raft. Select raft models include a raft canopy, located inside the accessories case, which features two (2) roll-up doors and a rain water collector in the top of the roof panel. The VIP and SAM Series life rafts have auto self-erecting canopies, which have two (2) doors which can be sealed closed with Velcro. Also, the VIP and SAM series canopies are affixed to the life raft with Velcro so if needed the canopy can be removed and reinstalled. USA: FAA TSO-C70a, Type II Germany: LBA No. 40.320/12 Japan: JCAB No. 535 • For Air Taxi, Corporate and General Aviation • Single Tube • Compact, lightweight. Constructed of neoprene coated nylon • High tech inflation system • Competitively priced.
